

Shahram Shawn Gholami, MD FACS

Curriculum Vitae

2460 Samaritan Drive
San Jose, CA 95124
SG@uasv.com
408-358-2030 Office
408-399-4433 Fax
408-690-4433 Cel

Positions:

- 2013-Present **CoFounder and Chief Executive Officer, VMDOC – A Delaware Corporation**
Patient centric patient engagement tool. Cloud based HIPAA compliant healthcare IT company.
- 2009-Present **Urology Expert Reviewer, Medical Board of California**
Consultant and medical expert opinion to the Medical Board of California evaluating urologic cases that are evaluated by the MBC and determining potential medical errors and surgeon culpability.
- 2016-present **Chief Medical Officer, KDX Corporation**
CMO, Diagnostic lab start-up studying bladder cancer.
- 2002-present **CEO, Principal Investigator and Director, Shahram S. Gholami MD APC**
Owner, operator, clinical trials director - Urology practice specializing in Urological Oncology, Robotics, and Men's Health.
- 2008-2016 **Managing Partner- Boss Surgical Group- National Surgery Center**
National ASC is a high end, specialty specific outpatient surgical center, with state of the art technology. It is focused on providing the highest level of care for its patients while teaching the next generation of surgeons.
- 2007-2017 **Consultant and Clinical Trial Investigator, Neotract Corporation**
Consultant and clinical investigator for a novel intra-urethral device for treatment of benign prostate hypertrophy and urinary obstruction.
- 2013-present **Quality Care Committee, Cooperative of American Physicians Insurance Company**
Medical expert reviewer of cases brought to Cooperative of American Physicians and determining Insurance payout and practitioner culpability.
- 2008-2015 **Director of Men's Health- American Medical Clinic Shanghai , China**
AMC China is a private healthcare clinic that provides US standard healthcare in Shanghai. World-renown US surgeons are brought to China to operate on Chinese nationals and expatriates. This venture was originally orthopedics based, however in 2008 the men's health program was started to cover a broad range of medical treatments.
- 2008-2015 **Scientific Advisor and Consultant, 5AM Venture Capital Company**
Consultant to VC company and review of emerging technology for potential early stage investment.
- 2011-2015 **Scientific Advisor and Consultant, EM Kinetics**
Consultant and clinical investigator for a novel trans-cutaneous nerve stimulator to help treat over-active bladder dysfunction.
- 2004-2015 **Scientific Advisor and Consultant, Coloplast Inc**
Consultant and clinical advisor for a women's health and men's health company specializing in Urethral Slings, Penile Prosthesis and Breast Implants.
- 2006-2014 **Scientific Advisor and Consultant, Medtronic Inc.**
Consultant and clinical advisor for spinal implants for neuromodulation in female and male urinary and rectal incontinence.
Consultant and proctor in Radiofrequency treatment of BPH.
- 2009-2015 **Director of Robotic Surgery- Good Samaritan Hospital**
- 2002-2010 **Clinical Faculty, University of California, Department of Urology, San Francisco California**
- 2003-2008 **Clinical Faculty, Stanford University, Department of Urology, Stanford California**
- 2007-2009 **Alvarado Hospital, San Diego- Co-Owner**
Consulting to help recruit new physicians, increase admissions and develop specialty programs in a physician owned Hospital 306 acute and specialty beds in San Diego.
- 2007-2009 **Vice Chairman Department of Surgery, Good Samaritan Hospital, San Jose**

2006-2008 **Credentials Committee Chair, Good Samaritan Hospital, San Jose**

2005-2006 **Vice Chair Department of Surgery, Community Hospital Los Gatos**

Board Positions:

2013- present

Co Founder and Chairman of Board, VMDoc

Medical IT company specializing in doctor patient communication and patient records management.

2013-present

Board of Directors, Dean's Advisory Board, Boston University School of Medicine

2010-2016

Boss Surgical Group- Founder and Partner

A physician led group consulting surgery centers throughout the United States, Mexico, and Asia. Providing consulting and management services in billing, insurance collecting, physician recruitment, marketing, center development, surgery center design, construction, and staffing.

2004-present

Scientific Advisor, Consultant, and Medical Board, Stryker Endoscopy

Consultant and development of new technologies in laparoscopy and laparoscopic instrumentation. Hands on development and refinement the new urology endoscopy line. Clinical educator of surgical and endoscopy representatives and new hires.

2013-present

Board Member- V Foundation, Wine Celebration

I am a board member for the V Foundation Napa Wine Celebration. The V Foundation is a 100 million dollar foundation that raises money for cancer research. One hundred percent of monies raised by this charity are given to cancer research.

2007-Present

Urological Surgeons Northern California

Board member , Founder 2007, Vice President 2007-2009, 2014-present

A single specialty group of 15 northern California Urologists

2011-present

Co-Founder, Champion Health Enterprises

Champion Health Enterprises is a physician led company postured specifically to address the health care needs of Native American Tribes and their business entities through management of novel health ecosystems. Champion's mandate is to enhance access to state of the art health care and health resources for Tribal Members and their employees while reducing significantly organizations' long and short term health care expenditures. Independent Qualitative and Quantitative assessments of this mandate have proved significantly positive.

2014- present

Board member, Puracath Inc.

Medical device startup. Novel peritoneal dialysis sterilization system and central venous catheter sterilization company.

2015- present

Board member, FourandHalf Inc.

Real Estate startup. Property management marketing company.

Certification: Board of Urology	2002-present
Fellowship: University of Paris, Institut Mutualiste Montsouris Chairman: Professor Guy Vallancien 42 Boulevard Jourdan, Paris, France 75014 Urologic Laparoscopic Oncology Fellowship	June 02-Jan 03
Training: University of California, San Francisco. Department of Urology Chairman Peter Carroll, M.D. 533 Parnassus Ave, Box 0738 San Francisco, CA 94143-0738 Urology Residency	July 98-June 02
University of California, San Francisco. Department of Surgery Program Director: Linda Reilly, M.D. 533 Parnassus Ave, Box 0738 San Francisco, CA 94143-0738 Surgical Residency	July 97-June 98
University of California, San Francisco. Department of Surgery Program Director: Linda Reilly, M.D. 533 Parnassus Ave, Box 0738 San Francisco, CA 94143-0738 Surgical Internship	July 96-June 97
Education: Boston University, School of Medicine 80 East Concord Street C329, Boston, MA 02118 Doctor of Medicine	Sept 92-May 96
Cornell University, College of Arts and Sciences 222 Day Hall, Ithaca, NY 14853 Bachelor of Arts in Biological Sciences, Concentration in Genetics Howard Hughes Medical Scholar	Sept 88-June 92
Marin Catholic High School High School Diploma, Kentfield, California	Sept 84-June 88
Honors: Top Doctor-Silicon Valley Magazine Top Doctor- San Francisco Magazine Top Doctor- San Jose Business Journal Men's Health Network – Research Award Golden Glove Award- European School of Surgery Ethicon Endosurgery- Laparoscopy Scholar Stryker Endoscopy- Laparoscopy and Endoscopy Scholar California Urology Foundation Research Award Lapides Essay Contest- Top Research Prize Northern California Urology Resident Research Award- Second Prize Northern California Urology Resident Research Award- First Prize Howard Hughes Medical Institute Scholarship Junior Diabetes Foundation Scholarship American Heart Association Scholarship National Honor Society Scholarship Dean's Honor Roll College and Medical School American College of Physicians' Medical Student Research Award (Two time recipient)- First Prize Bank of America Scholastic Award and Scholarship	2010 2002 2004 2004 Jan 2001 Jun 2002 Mar 2001 Mar 2000

Memberships:

Fellow of American College of Surgeons
Society of Laparoscopic and Robotic Surgery
International Sexual Medicine Society
Men’s Health Network Board of Advisors
American Urological Association
Northern California Urological Society
San Jose Surgical Society
American Association of Clinical Urologist
Urology Journal- Editorial Board
The Golden Glove Society- European School of Surgery
Endourological Society
American Medical Association
American College of Physicians
Santa Clara Medical Society

Editorial Board:

Urology Journal 2003- Present
Men’s Health Journal 2004- Present

Research:

Shahram S. Gholami, M.D. APC 2010-present
NeoTract Corporation- Investigational Device Exemption
BPH Study Principal Investigator: Shahram S. Gholami, M.D.
Project: To evaluate the efficacy of a novel device to treat BPH. Phase 3 clinical trial.

Shahram S. Gholami, M.D. APC 2010-2012
Allergan Corporation
Voiding Dysfunction Study; Principal Investigator: Shahram S. Gholami, M.D.
Project: To evaluate the efficacy of Sanctura vs Detrol for the treatment of severe overactive bladder dysfunction.

Shahram S. Gholami, M.D. APC 2010-2012
EM Kinetics Corporation- Investigational Device Exemption
Voiding Dysfunction Study; Principal Investigator: Shahram S. Gholami, M.D.
Project: To evaluate the efficacy of EM Kinetics electrostimulation therapy for the treatment of severe overactive bladder dysfunction.

Urology Associates of Silicon Valley 2006-2007
BPH and Voiding Dysfunction Study; Principal Investigator: Shahram S. Gholami, M.D.
Projects:
1. Prospective, Multicenter, Randomized, Parallel-Group Trial Comparing the Efficacy and Safety of PROSTIVA-RF® Therapy to Combination Medical Therapy for Subjects with Symptomatic BPH
2. A pilot clinical study to evaluate the initial feasibility of neuromodulation therapy in treating patients with overactive bladder via magnetic stimulation of the posterior tibial nerve.

Shahram S. Gholami, M.D. APC 2003-2004
Voiding Dysfunction Study; Principal Investigator: Shahram S. Gholami, M.D.
Project: To evaluate the efficacy of topical anticholinergic therapy patches compared against placebo and oral medications.

University of California, San Francisco, Department of Urology Aug 96-2007
Impotence and Neurourology; Principal Investigator: Dr. Tom F. Lue
Projects:
1. Gene therapy on a rat model for the treatment of hypercholesterolemic and vasculogenic erectile dysfunction.

2. The evaluation of a type-V phosphodiesterase inhibitor, sildenafil, in an ischemia-reperfusion model.
3. A study on a rat model evaluating gene and protein therapy for the prevention and treatment of radiation induced erection dysfunction.
4. A study evaluating the long-term effect of ovariectomy and simulated birth trauma on the lower urinary tract of female rats.

Laparoscopy: Principal Investigator: Dr. Marshall L. Stoller
 Project: A study evaluating the feasibility of laparoscopic partial organ resection in a porcine model.

Boston University School of Medicine, Department of Urology June 94-June 96

Erectile Dysfunction: Principal Investigator: Irwin Goldstein
 Projects:

1. A prospective study on the effect of digoxin versus placebo on human erectile function in vivo and in vitro.
2. A retrospective review of the association of lumbosacral disc disease with impotence.
3. The effect of bicycling on erectile function and dysfunction in men and women.
4. A retrospective study evaluating an elevated body mass index and its association with impotence.

University of Valdivia, Department of Reproductive Physiology, Valdivia, Chile Summer 93

Obstetrics Principal investigator: Dr. Francisco Guerra
 Project: An in vivo study of the intrauterine effects of terbutaline on fetal cephalic conduction, vagal stimulation, and carotid blood flow on a caprine model.

Cornell University, Department of Biochemistry Sept 91-Mar 92

Biochemistry Principal Investigator: Dr. André Bensadoun
 Project: A molecular biology study to determine the heparin-binding domain of the enzyme lipoprotein lipase.
 Howard Hughes Scholar

Cornell University, College of Veterinary Medicine, Department of Physiology Aug 89-Aug 91

Physiology Principal Investigator: Dr. Joanne E. Fortune
 Project: A study of the effect of various hormones on oxytocin secretion by bovine granulosa cells.
 Howard Hughes Scholar

Stanford University, School of Medicine, Division of Endocrinology. Summers 87-90

Biochemistry Principal Investigator: Dr. Frederic B. Kraemer
 Project:

1. A study on a rat model to detect the enzyme hormone sensitive lipase in various tissues.
2. A study on the effect of human chorionic gonadotropin on the regulation of the enzyme hormone sensitive lipase in rats.
